

# Ag Film Recycling

# How we started

- 4 years ago.....
  - First introduction to plastic manufacturing
    - Making bio bins
- 3 years ago
  - Started on farm collection
- 2 years ago
  - Making resin for fiber board
  - MDF and oriented strand board (OSB)
  - This project led to the design and selection of recycling equipment

## How the Collection Program works

- Farmer contacts us
- Send out 15 bags in the mail
- Farmer segregates bale wrap, net wrap, twine, silo covers and ag-bags
- When 10 full, farmer contacts us
- We pickup and leave new empty bags

# Testing Washing System
